 **METAL LUX**

VOL 4.8

Metal Lux è un'azienda situata nel cuore del Distretto veneto dell'illuminazione che con orgoglio è giunta al traguardo dei 45 anni di storia. Da sempre presente nei maggiori mercati internazionali grazie a una forte rete commerciale ed espositore fin dagli anni '70 nelle più qualificate fiere del settore, ha saputo innovare e rinnovarsi dando vita a prodotti di alta qualità e design con l'apporto di una nutrita schiera di maestranze altamente specializzate nelle diverse operazioni di artigianato. Le modificate condizioni di mercato hanno spinto Metal Lux a dar vita a un nuovo indirizzo produttivo orientato alla realizzazione di articoli su misura destinati al settore dell'ospitalità e all'abitativo di alto livello. Nuovi articoli su richiesta del committente vengono progettati e realizzati impiegando i più avanzati sistemi di progettazione e attrezzature di ultima generazione. La grande esperienza maturata in questi anni di operatività e presenza nei mercati consente a Metal Lux di proporre soluzioni illuminotecniche caratterizzate da un forte contenuto tecnologico a prezzi competitivi e in tempi estremamente ridotti. Situata in un ambiente naturale di alto pregio caratterizzato dalla presenza del Parco Regionale del Fiume Sile e da colture ortofrutticole DOP, Metal Lux nel 2012 si è dotata di un impianto fotovoltaico di 366 kW che garantisce la quasi totale autonomia del fabbisogno energetico. L'impianto fotovoltaico posizionato sul tetto della propria struttura produttiva è composto da 1.600 pannelli fotovoltaici e garantisce la mancata emissione di 220 tonnellate annue di CO₂.

Metal Lux is located in the heart of the Veneto lighting industry district and the company has proudly reached its 45-year business milestone. Metal Lux has always been present in major international markets thanks to its strong sales network and started exhibiting in the most prestigious trade fairs in the 1970s. The company has successfully innovated and renewed, creating top-quality design products with the help of a large group of co-workers who are highly specialized in different artisan skills. Shifting market conditions persuaded Metal Lux to create a new production line of bespoke items for the hospitality and high-end residential sectors. Customers request new items, which are designed and manufactured using state-of-the-art design systems and cutting-edge metalworking equipment. The vast experience acquired over its years in business and its market presence mean that Metal Lux can offer lighting solutions characterized by a high technological content at competitive prices and with a fast turnaround time. The headquarters are set in a lovely natural environment, near the "Parco Regionale del Fiume Sile" with DOP fruit and vegetable plantations. In 2012 Metal Lux installed a 366 kW photovoltaic system that covers almost all the energy requirements. The system is fitted to the production plant roof and comprises 1.600 solar panels that ensures non-emission of 220 tons of CO₂.

design STUDIO TECNICO METAL LUX

La forma perfetta della sfera che ritorna e impone una logica ferrea e convincente, chiaramente avvertibile in tutte le funzioni in cui è inserita. Armonizzata e domata dalle linee ardite di una struttura metallica, la sfera si impone come diffusore ideale di orizzonti luminosi senza limite. Con accorti interventi strutturali GLOBAL può raggiungere possenti dimensioni per mega spazi di aree comuni, dove emerge con la travolgente eleganza di un contrappunto di luce viva e trame metalliche.

A glorious comeback of the sphere: the shape of perfection, imposing a strong and convincing logic wherever it is installed. The strong lines of metal structure conveys a sense of contemporary elegance. With skilled structural interventions GLOBAL is able to reach dramatic dimensions to cover large spaces of common areas for hospitality business.

design STUDIO TECNICO METAL LUX

Da forme un po' retrò, semplici ma funzionali proprio per la loro semplicità, nasce una collezione che riporta in voga lo stile degli anni settanta/ottanta di concezione modulare, riproposta qui con rinnovata interazione fra luce e spazio per suggerire soluzioni dal sapore vintage ma assolutamente affascinanti.

A simply retro design revised with an additional impact of new shapes and functional accents. The vintage effect is strengthened by an impressive modular structure suggesting a fascinating interaction between light and space.

design STUDIO TECNICO METAL LUX

Un'irruzione di luce che si riflette e rimbalza sulla superficie cristallina di sfere luccicanti.
Da una solida base inox a taglio laser scendono leggere ed eleganti infinite soluzioni compositive
di estrema trasparenza che animano spazi e tempi di una luce gioiosa e tersa.

*A dramatic dazzle of lights illuminates a cluster of fine surfaced glass bubbles.
From a solid laser base light sprays mysterious appaling rays of glorious accents.*

orbita

design STUDIO TECNICO METAL LUX

Orbita si impone in modo “cosmico” per le linee pulite ed essenziali e per il poderoso vigore monumentale che riesce a imporre nello spazio nel quale si libra e nel quale si mantiene in perfetto ed “eterno” equilibrio, ovvero, quella che nelle arti figurative è sempre stata denominata “forza plastica”: essenza di spettacolare bellezza qui applicata alla moderna illuminazione d'interni.

Spectacular beauty emerging from a cosmic, silent space. Pure lines designed by a vivid sign of eternal value. A perfect balance of material, function and concept are blended in a never ending musical rhythm.

estro

design STUDIO TECNICO METAL LUX

Estro vuole essere curioso, creativo e aperto, per poter entrare in un dialogo con l'architettura degli interni, sia privata che pubblica, ma soprattutto quella della moderna *urbanitas*, intrisa di arte e di design. Sono aspetti culturali in continua evoluzione e che hanno un ruolo molto importante a cui la collezione Estro dà un notevole contributo per "segno formale" e raffinatezza tecnica.

A curious, creative, open dialogue where architectural structure meets interior design taste. Light output from a geometrical structure adds to the space impressive notes of a formal sign and technical refinement. Art and modern design are displaying a new language.

turbo

design STUDIO TECNICO METAL LUX

Linee essenziali disegnano una struttura elegante non invasiva che traduce la funzionalità in una solida e efficace trama costruttiva. A fronte di una geometria marcata con evidenza, l'apparecchio si propone efficacemente in un contesto residenziale e marca in maniera convincente ampi spazi dedicati al pubblico.

Essential design reveals an elegant non-invasive structure able to translate functionality into a solid and impressive construction plot. Faced with a clearly marked geometry, the luminaire effectively marks a residential context as well as generous spaces dedicated to the public.

impossible

design MASSIMO MUSSAPI

Progettata dall'architetto Massimo Mussapi per METAL LUX HIGHLIGHT la collezione ha ottenuto grande interesse da una vasta platea di architetti e lighting designers che vi hanno intravisto la luminosa duttilità ed l'elegante risonanza in progetti altamente qualificati. Prevede diversi modelli, anche di grande formato, con versioni a sospensione, plafone e da terra, singoli o a gruppi per composizioni spettacolari. Il senso gentile della luce tutto veneziano riecheggia nel gioco virtuosistico delle trame delicate, nelle forme morbide e leggere, magicamente sospese come nuvole luminose tra terra e cielo.

Designed by the architect Massimo Mussapi for METAL LUX HIGHLIGHT this collection had experienced a overwhelming interest by architects and lighting designers who have glimpsed the luminous flexibility and elegant resonance in highly qualified projects. It consists of different models of suspension, ceiling and floor lamps - also available in large formats - can be used both individually and in groups for spectacular arrangements. The delicate Venetian-style light effect is echoed by graceful and virtuos textures, smooth and light silhouettes, magically suspended like bright clouds between sky and earth.

altensione

design MASSIMO MUSSAPI

È un progetto dell'architetto Massimo Mussapi per METAL LUX HIGHLIGHT. Prevede due modelli di lampada a sospensione/plafoniera singolo e doppio, finitura cromo lucido, verniciata bianco, nero o bicolore. Grande e leggera, da sola o in composizioni spettacolari, si confronta con sicurezza sia con gli edifici storici, che con le architetture più moderne.

Altensione is a project designed by the architect Massimo Mussapi for METAL LUX HIGHLIGHT. It consists of two models of suspended lamp/ceiling, single and double, with shiny chrome finish, available in white/black. Big and light, it can be used both individually and in spectacular compositions, and it is perfectly suitable for both historic buildings and modern architecture.

dedalo

design STUDIO TECNICO METAL LUX e S.S.D.

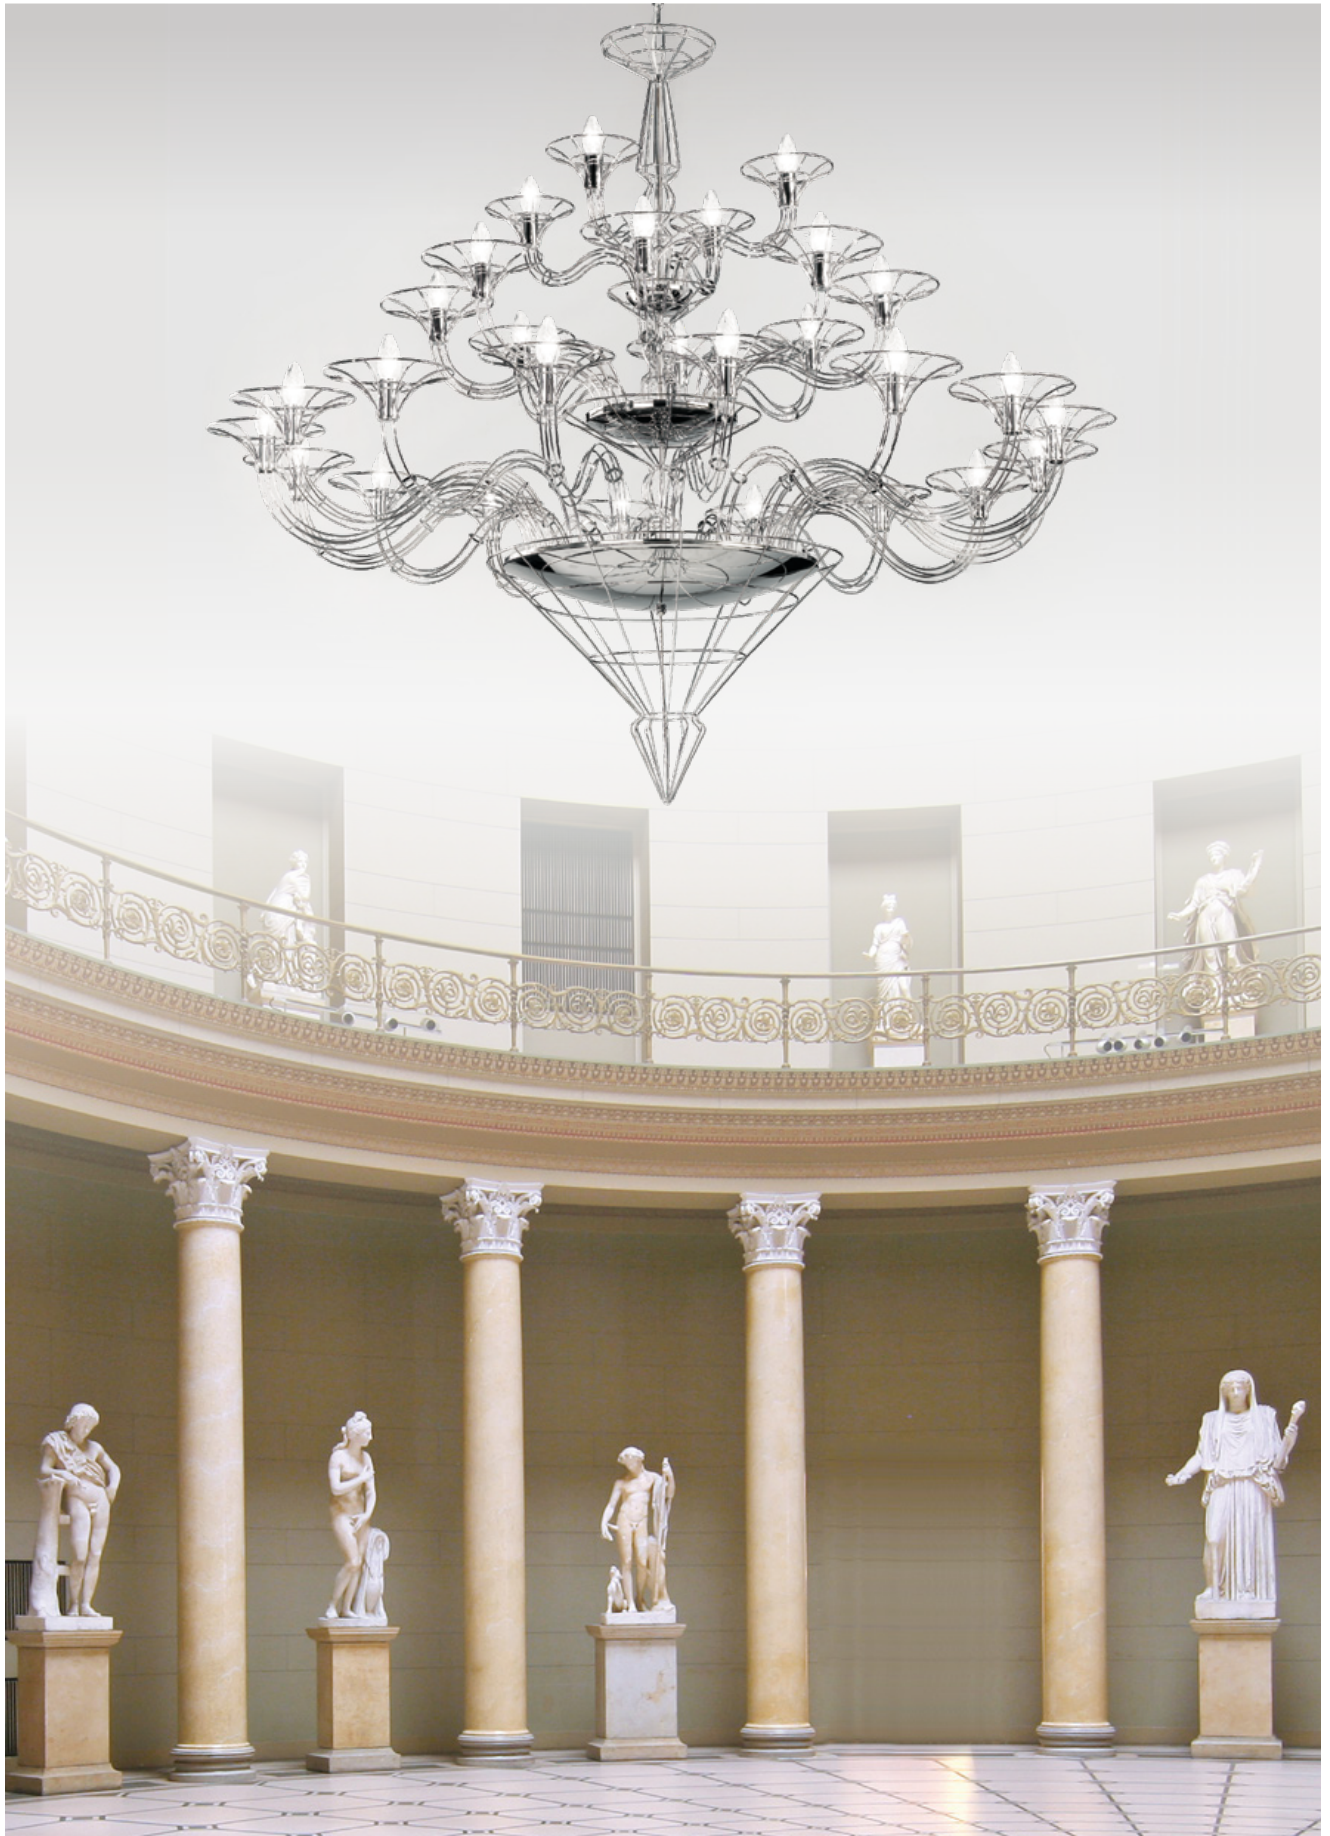

Il concetto della trasparenza, dell'eleganza applicato a una forma sinuosa intimamente connessa alle volute eleganti del lampadario Veneziano. L'interpretazione innovativa riflette e condensa le elaborazioni secolari dello stile veneziano e trova una sintesi con il linguaggio e le sonorità di una trama metallica di assoluta perfezione.

An up to date, metallic translation of the elegant line of a traditional Murano-style chandelier in modern terms and brilliant accents. A fine almost imperceptible mash of glittering wires, transmits an incandescent glow of light with reflected brilliance.

icaro

design MARINO CAGNATEL

Le grandi ali di vetro perfettamente trasparente di questa opera si librano sottili e leggere nello spazio attraversate dalla luce che ne accentua lo sfavillio nell'aria circostante. Il volo prende forma e la luce che si spande vivace nell'ambiente risulta di una eleganza senza tempo.

Wide, hardly visible glass wings spread their shining transparency over silver plated structures. Sparkling timeless elegance brightens in the air pouring a magic essence of generous new life.

opera

design Studio Tecnico Metal Lux

Una collezione che trasmette le sonorità vibranti della luce, calda e avvolgente come una vivace sinfonia di un'aria intramontabile. La struttura leggerissima, in elegante metallo cromato, sorregge delicatamente coni di luce dalle calde trasparenze o vestiti di candido bianco plissé.

Vibrant sounds of light emitted by a range fittings, warm envelops like a lively symphony of timeless songs. Easy structures of shining chrome filaments offer shining transparencies of colourful shades.

dolce

design ELVIO LUNIAN

Una composizione che disegna nello spazio eleganti tracce luminose. Le linee severe della montatura sono aggraziate alla melodia avvolgente emanata dai diffusori in vetro soffiato. Le forme bizzarre di sospensioni e delle plafoniere imprimono all'ambiente una nota disincantata di leggerezza.

A fairy composition that marks the space with elegant trails of lights. The affirmative lines of metal structure are gracefully embedded in a warm and cultivated atmosphere suggested by blown glass diffusers. From the bizarre shapes of ceiling and hanging sets emerge notes of lightness.

wave

design Ufficio Tecnico Metal Lux

Un'onda formata da fili sinuosi di cristallo che decostruisce la fonte di luce al loro interno per farla esplodere fluente nello spazio in mille rivoli, mai uguali tra di loro, dagli effetti sempre nuovi sui soggetti su cui si infrangono. Rilettura del sempre affascinante cristallo antico portatore di una moderna sfavillante visibilità.

Sinuous crystal wires are deconstructing the light source inside, conveying an explosion of sparkling luminous floods. Revision of the ancient fascinating history of crystal as timeless source of magic atmosphere.

conico

design STUDIO TECNICO METAL LUX

La fonte luminosa si presenta avvolta in una forma iconica classica. Il cono tagliato ad angolo scandisce un ritmo di elegante armonia. Il gioco di luce è esaltato dalla veniciatura a foglia oro degli interni e potenzia l'emissione di placidi flussi di luce.

The light source is wrapped in a classic iconic form. The cone cut at an angle punctuates a rhythm of elegant harmony. Light output is magnified by the gold leaf coating of the interior and enhances the emission of placid streams of light.

chiara

design STUDIO TECNICO METAL LUX

La rigorosa e severa linea della mezza sfera ha permesso alla luce, con intuito di estrema sintesi, di provenire dall'apice interno dell'emisfero per insinuarsi e fondersi in assoluta armonia nell'elemento spaziale in cui è inserita. Elemento elegantissimo, di proporzioni importanti e con superficie finemente elaborata nelle quattro varianti cromatiche si presta con naturalezza ad ogni esigente personalità di interior.

Rigorous and severe translation of the eternal emispheric shape. Spacial elements conveys a perfect sense of harmony and beauty. The fine elaboration of metal surface lends a personal touch of elegant proportions to private or public space.

lastra

design STUDIO TECNICO METAL LUX

Il vetro, naturale e libero, spesso e colorato, incantesimo millenario per antica sapienza artigiana. Sempre ammirato, il vetro in "lastra", si presta all'uso concettuale dell'illuminazione per amplificare gli spazi con abbinamenti cromatici di trasparenza creando un'atmosfera accogliente in cui le note rassicuranti del passato si fondono con l'energia del presente.

Natural, free glass elements revised by a old and always new craftmanship. The never ending history of glas panels regains life with chromatic combinations and transparencies able to evoke incredible notes of timeless elegance.

nest

design STUDIO TECNICO METAL LUX

Una cavità elegante che raccoglie e trasmette vibratili sensazioni luminose. Forme armoniche che inviano con toni soffici radiosi lampi di luce. Un grappolo etereo sospeso in spazi cristallini da cui scendono morbidi flussi luminosi.

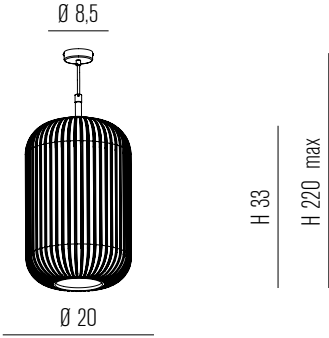

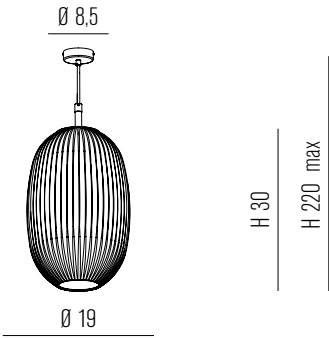

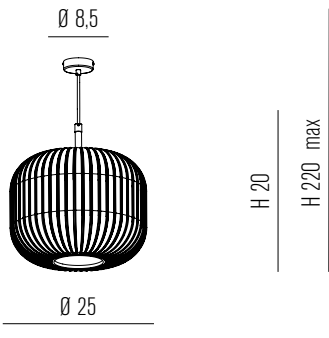

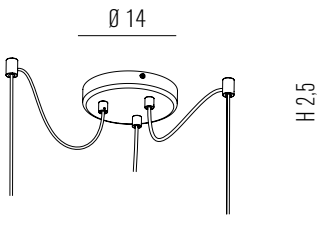

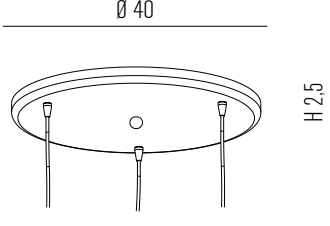

An elegant cavity that collects and transmits vibrant sensations. Harmonic forms sending subtle tones and radiant flashes of light. An ethereal cluster suspended in crystalline spaces leading to soft descents of luminous fluxes.

manta

design STUDIO TECNICO METAL LUX

Una superficie piatta, lucida che improvvisamente si anima di fasci di luce avvolgenti. Forme sinuose di estrema compattezza che danno rilievo alle superfici senza creare odiosi problemi di invasivi interventi su soffitti e pareti. Linee sobrie ed essenziali garantiscono massima evidenza dell'apporto luminoso e rendono la linea ideale per ambienti dedicati ad attività professionali con esigenze di ampia luminosità.

A shiny flat surface that suddenly comes alive with enveloping light beams. Sinuous forms of extreme compactness emerging to surfaces avoiding nasty problems of invasive interventions on ceilings and walls. Sober and essential lines grant maximum evidence of the light contribution. An ideal line for environments dedicated to professional activities with needs of generous brightness.

dado

design STUDIO TECNICO METAL LUX

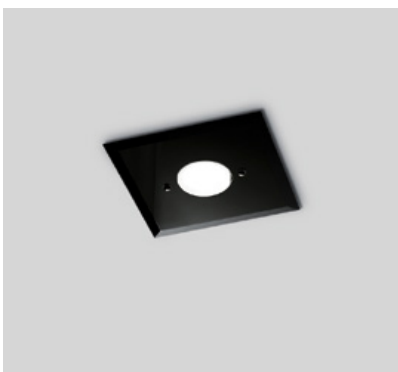

Una figura geometrica semplice, intuitiva, flessibile che alterna ombra e luce, ritmo e linea. Si inserisce tranquillamente in tutti gli spazi sia domestici come funzionali, inondando atmosfera e oggetti di una luce franca e generosa. Led offuscabile privo di driver garantisce continuità e longevità nelle prestazioni.

A simple, intuitive, flexible geometric structure alternating shadow and light, rhythm and line. It fits comfortably in all spaces domestic and professional, DADO overflows atmosphere and objects with a frank and generous light beam. LED cluster, dimmable and driverless, guarantees long-lasting and perfect performance.

custom

L'esperienza di oltre 45 anni di appassionato contatto con metalli e componenti ha maturato nelle nostre maestranze un'assoluta padronanza di tecniche e strumenti. Le richieste più estreme trovano da noi risposte rapide ed adeguate. Disponiamo di impianti e macchinari per la lavorazione dei metalli all'avanguardia. Un impianto galvanico di ultima generazione presiede al trattamento delle superfici in tempo reale. Da un'idea, un suggerimento siamo in grado di ricavare forme e luci destinate ad imprimere agli spazi più disparati un duraturo sigillo di eleganza ed efficienza.

With over 45 years of close encounters with metal and parts our skillful workers are perfectly comfortable with any kind of issues and inquiries. Our state of the art equipment and of metal working machineries along with a last generation galvanic plant allow us to find proper solutions and adequate developments of customer's requests. Your ideas and concepts will be carefully and efficiently developed, designed, engineered to forms and shapes of fittings aware of colours, finishing, material. We customize your vision of lights efficiently, fast and at competitive prices.
